

# Kraut & Rüben Heucobs

100 % grasses and herbs from natural meadows – CO<sub>2</sub>-neutral production

- Low fructan content thanks to optimal harvest time
- Dust-free thanks to repeated sifting and gentle processing
- Free from molasses and no added sugar

Meaning for:	Analytical constituents:		
Growth, maintenance, regeneration	crude protein	%	10.5
Strength, endurance, healthy skin	crude fat	%	3
Digestion, gut	crude fibre	%	27
Supply of minerals	crude ash	%	9
	fructan	%	4
Energy, strength	starch	%	2
Rapidly available energy	sugar	%	7.5
Every metabolic process	digestible energy per kg (DE)	MJ/kg	7.9
Supply of amino acids	digestible crude protein (dXP)	%	7.1

The declared values are of native origin. Natural fluctuations are possible.

Data for calculating the material flow balance (DüV – German Fertiliser Ordinance – May 2017): 1.7 % nitrogen (N) | 0.7 % phosphate (P2O5)

## Low fructan content

## Dust-free

## Rich in crude fibre

## Molasses-free

### Feed material for horses

**Composition:** meadow grasses and herbs, dried 100 %.

**Directions for use:** Soak before feeding. Please store in a cool and dry place.

**Feeding recommendation:** As a sole basic feed (complete hay substitute): 1.5 kg Josera Kraut & Rüben Heucobs per 100 kg body weight per day. As a basic feed supplement (to enhance an existing hay ration): 1 kg Josera Kraut & Rüben Heucobs replaces 1 kg hay.

**Preparation:** To soak, add 2 - 3 litres of water per kg of hay cobs and let it soak for at least 30 minutes. Using warm water reduces the soaking time. 1 litre of Josera Kraut & Rüben Heucobs = approx. 500 g.

Available in: **20 kg**
