## Kraut & Rüben Mash

The best from a traditional mash in a grainfree formula

- With linseed, natural oils and minerals for a glossy coat and good hoof growth
- Significantly reduced levels of starch and sugar for horses suffering from metabolic disorders
- Rich in mucous-forming components and prebiotics for sound digestion

\*grainfree formula

Meaning for:	Analytical constituents:		
Growth, maintenance, regeneration	crude protein	%	16.2
Strength, endurance, healthy skin	crude fat	%	7.7
Digestion, gut	crude fibre	%	17.7
Supply of minerals	crude ash	%	7.3
Energy, strength	starch	%	3.9
Rapidly available energy	sugar	%	6.2
Bones, nerves, blood clotting	calcium	%	1
Bones, energy metabolism	phosphorus	%	0.5
Water and electrolyte balance, nerves	sodium	%	0.4
Muscles and nerves	magnesium	%	0.3
Every metabolic process	digestible energy per kg (DE)	MJ	10.9
Supply of amino acids	digestible crude protein (dXP)	%	11
For muscle development & maintenance	lysine	g	6.4

Meaning for:	Additives: nutritional additives per kg:		
Resistance to infection, vision	vitamin A (3a672a)	I. U.	8,000
Mineral balance	vitamin D3 (3a671)	I. U.	800
Cell protection, fertility, muscles	vitamin E / all-rac-alpha-tocopheryl acetate (3a700)	mg	330
Energy metabolism, nerve function	vitamin B1 (3a821)	mg	17
Numerous metabolic processes, eyes	vitamin B2 (3a825i)	mg	17
Protein metabolism	vitamin B6 (3a831)	mg	15
Blood formation, growth	vitamin B12	mcg	150
Metabolism, skin	niacin (3a314)	mg	100
Metabolism, resistance to infection	calcium D-pantothenate (3a841)	mg	50
Blood formation, antibody production	folic acid (3a316)	mg	14
Energy metabolism, skin, hooves	biotin (3a880)	mcg	1,000
Fat metabolism, nerves	choline chloride (3a890)	mg	250
Intact skin, vision, metabolism	zinc as zinc chelate of glycine hydrate (solid) (3b607)	mg	108
see above	zinc as zinc oxide (3b603)	mg	108
Intact skin, vision, metabolism	manganese as manganese(II)oxide (3b502)	mg	100
Blood formation, cartilage formation	copper as copper(II)chelate of glycine hydrate (solid) (3b413)	mg	25
see above	copper as copper(II)sulphate pentahydrate (3b405)	mg	25
Thyroid, energy metabolism	iodine as calcium iodate, anhydrous (3b202)	mg	2.2
Cell protection	selenium as sodium selenite (3b801)	mg	0.9

Data for calculating the material flow balance (DüV – German Fertiliser Ordinance – May 2017): 2.6 % nitrogen (N) | 1.1 % phosphate (P2O5)

Contains herbs

Fully mineralised

Recipe free of molasses, starch- & sugar-reduced

Psyllium husks & chicory pulp

Complementary feed for horses

**Composition:** meadow grass, dried 35 %; apple pomace flakes 23.3 %; extracted linseed 22.5 %; linseed 10 %; chicory pulp, dried 3 %; vegetable oil, refined 2 %; herbs (fennel, thyme, anise, caraway) 1.5 %; calcium carbonate 0.7 %; psyllium husks 0.5 %; carrot pieces, dried 0.5 %.

**Directions for use:** Due to the higher trace element content compared to complete feeds, this complementary horse feed may only be fed up to 50 % of the daily ration. Soak before feeding. Please store in a cool and dry place.

**Feeding recommendation:** 2-3 times a week depending on size of horse 0.5–1 kg as a supplement or to replace the usual manger ration. We recommend 100-200 g per 100 kg body weight. Preparation: e.g. Mix 1–2 litres of Josera Kraut & Rüben Mash (note: 1 litre of mash = 450 g) with two to three times as much warm water (approx. 50 °C). Let it soak for 15–20 minutes and feed at a moderate temperature. If necessary, it can also be mixed with cold water; this extends the soaking time by around 5 minutes.

Available in: **15 kg**
